MEICHA

After receiving your deposit, a PMU manual will be sent to you to do pre-study.

Microblading is a part of permanent makeup. You work with skin, needles and pigments.

We want you to FULLY understand all aspects of skin, colour theory and tattooing principles.

It's imperative that you do go through the manual before your course.

- Three live models will be done in class.
- An attendance certificate will be given upon finishing your four day course.
- 10 case studies need to be completed at home.
- Once your educator approves them, she will issue your official certificate.

Advantages of Microblading:

- Very natural-looking results
- Each hair can be drawn in individually
- More affordable for the technician to start her career
- Thicker pigment is used to have better retention
- Lasts 1-2 years, with annual refreshers needed
- Every year new advanced techniques can be done.
- With correct anaesthetics procedure is comfortable
- Equipment cost is affordable

This Course is ideal for you if you are:

- Looking for a second income
- Interested in starting a new career
- Beauty/Makeup artist wanting to expand
- Salon owner searching for a new revenue stream
- Wanting to attract more clients
- New to the beauty industry, with no prior qualifications
- Looking to setup your own mobile business

It's a pleasure

to welcome you to our team.

What will start out as a class with strangers will later turn into friendship and family.

We are excited to have you on this journey with us.

It is important to us that you feel encouraged and supported, and we are here to lift you up when you need it.
